Re: PowerShare Nonresidential Load Curtailment Rider
Docket No. 2013-298-E

Dear Ms. Boyd:

Duke Energy Carolinas, LLC (the "Company") proposes to amend its PowerShare Nonresidential Load Curtailment Rider ("Rider PS") to remove the limitation on the participating customer's demand that may be curtailed. Under the existing tariff, the maximum demand that the Company may curtail from participating customers is 50,000 kW. Removing this cap allows the Company to curtail greater amounts of participating customers' demand and should increase the program's cost effectiveness.

The proposed tariff revisions are shown in redline in Exhibit A, which is attached hereto. Please feel free to contact me should you have any questions or concerns.

Kind regards,

Sam Wellborn
